Hand crafted at our Marietta, GA manufacturing plant, every recycle system is specially designed based on the customer's specific laundry operation. Whether it's a 5 Star hotel, a commercial laundry or a centralized healthcare plant, our engineers will design a system to provide the best quality recycled water in the industry. Our patented filtration system is the only technology available that removes all contaminants and chemicals from the wastewater while also providing a "dual assault" disinfection process without any added chemicals. So, for the best quality product producing the best quality linen, AquaRecycle® is the QUALITY leader in recycling.
